

This document contains information about the technologies that allow this Application to achieve the purposes described below. These technologies allow the Data Controller to collect and save information (for example through the use of Cookies) or to use resources (for example by executing a script) on the User's device when the latter interacts with this Application.

For simplicity, in this document such technologies are synthetically defined "Tracking Tools", unless there is reason to differentiate.

For example, although Cookies can be used in both web and mobile browsers, it would be inappropriate to talk about Cookies in the context of mobile applications, since they are Tracking Tools that require the presence of a browser. For this reason, within this document the term Cookie is used only to indicate specifically that particular type of Tracking Tool.

Some of the purposes for which Tracking Tools are used may also require your consent. If consent is given, it can be freely revoked at any time by following the instructions in this document.

This Application uses Tracking Tools managed directly by the Owner (commonly called "first party" Tracking Tools) and Tracking Tools that enable services provided by third parties (commonly called "third party" Tracking Tools). Unless otherwise specified in this document, these third parties have access to their respective Tracking Tools.

Duration and expiration of Cookies and other similar Tracking Tools may vary depending on what is set by the Owner or each third party provider. Some of them expire at the end of the User's browsing session.

In addition to what is specified in the description of each of the categories below, Users can get more detailed and updated information on the duration, as well as any other relevant information - such as the presence of other Tracking Tools - in the privacy policies of the respective third-party providers (through the links provided) or by contacting the Data Controller.

Activities strictly necessary to ensure the functioning of this Application and the provision of the Service

This Application uses Cookies commonly called "technical" or other similar Tracking Tools to perform activities strictly necessary to ensure the operation or provision of the Service.

Other activities involving the use of Tracking Tools

Experience

This Application uses Tracking Tools to improve the quality of the user experience and enable interactions with content, networks and external platforms.

How to manage preferences and give or withdraw consent

There are several ways to manage your preferences for Tracking Tools and to give or withdraw your consent, if necessary:

Users can manage Tracking Tools preferences directly through their device settings - for example, they can prevent the use or storage of Tracking Tools.

In addition, whenever the use of Tracking Tools depends on consent, You may give or withdraw your consent by setting your preferences within the cookie policy or by updating your preferences through the privacy widget for your consent preferences, if any.

Thanks to specific functions of the browser or device, it is also possible to remove previously saved Tracking Tools, including those used to save preferences relating to the consent initially expressed by the User.

Other Tracking Tools in the browser's local memory can be removed by deleting the browsing history.

Regarding Third Party Tracking Tools, Users can manage their preferences by visiting their opt out link (if available) by using the tools described in the third party's privacy policy or by contacting the third party directly.

Find settings for Tracking Tools

Users can, for example, find information on how to manage cookies in some of the most popular browsers at the following addresses:

Google Chrome

Mozilla Firefox

Apple Safari

Microsoft Internet Explorer

Microsoft Edge

Brave

Opera

Users can also manage some Tracking Tools for mobile applications by disabling them through the appropriate device settings, such as mobile advertising settings or tracking settings in general (Users can consult device settings to locate the relevant one).

Consequences related to the refusal to use Tracking Tools Users are free to decide whether or not to allow the use of Tracking Tools.

However, please note that the Tracking Tools allow this Application to provide Users with a better experience and advanced features (in line with the purposes outlined in this document). Therefore, if the User decides to block the use of Tracking Tools, the Owner may not be able to provide the related functionality.

Data Controller

Ceracarta Spa

Via Secondo Casadei, 14

47122 Forlì (FC) – Italy

Email address of Data Controller :info@ceracarta.it

Since the use of third party Tracking Tools on this Application cannot be fully controlled by the Owner, any specific reference to third party Tracking Tools is to be considered indicative. To obtain complete information, Users are kindly invited to consult the privacy policy of the respective third party services listed in this document.

Given the objective complexity of identification of tracking technologies, Users are invited to contact the Data Controller should they wish to receive further information about the use of such technologies on this Application.

Personal Data (or Data)

Personal data are any information which, directly or indirectly, also in connection with any other information, including a personal identification number, makes a natural person identifiable or identifiable.

Usage Data

This is the information collected automatically through this Application (also by third-party applications integrated into this Application), including: the IP addresses or domain names of the computers used by the User connecting with this Application, the addresses in URI (Uniform Resource Identifier) notation, the time of the request, the method used to forward the request to the server, the size of the file obtained in response, the numeric code indicating the status of the response from the server (good end, error, etc.) the country of origin, the characteristics of the browser and the operating system used by the visitor, the various temporal connotations of the visit (for example the time of stay on each page) and the details of the itinerary followed within the Application, with particular reference to the sequence of pages consulted, the parameters related to the operating system and the IT environment of the User.

User

The individual using this Application who, unless otherwise specified, coincides with the Data Subject.

Interested

The natural person to whom the Personal Data refers.

Data Processor (or Processor)

The natural person, legal entity, public administration and any other entity that processes personal data on behalf of the Data Controller, as set out in this privacy policy.

Data Controller (or Data Controller)

The natural or legal person, the public authority, the service or other body which, individually or together with others, determines the purposes and means of processing personal data and the

instruments adopted, including safety measures relating to the operation and use of this Application. The Data Controller, unless otherwise specified, is the owner of this Application.

This Application

The hardware or software tool by which Personal Data of Users is collected and processed.

Service

The Service provided by this Application as defined in its terms (if any) on this site/application.

European Union (or EU)

Unless otherwise specified, any reference to the European Union in this document shall be deemed to extend to all current member states of the European Union and the European Economic Area.

Cookie

Cookies are Tracking Tools that consist of small portions of data stored within the User's browser.

Tracking Tool

Tracking Tool means any technology - e.g. Cookies, unique identifiers, web beacons, integrated scripts, e-tags and fingerprinting - allowing you to track Users, for example by collecting or saving information on your device.

Legal references

Unless otherwise specified, this privacy policy applies exclusively to this Application.
